HOW TO PLAY

- * For starting game, press the HOME/CLR key or INS/DEL key when playing by the KEYBOARD (SC-3000) or press the JOYSTICK button (when playing by the JOYSTICK).
- * Control the hunter by using the JOYSTICK lever or the CURSOR control key. When the hunter gets on the trailer, the trailer can run on the road outside the jungle.
- * When the JOYSTICK buttons or the HOME/CLR key or INS/DEL key is pressed, the hunter is able to shoot the animals by the tranquilizer gun which causes them to fall into a tranquilized sleep.
- * When the target animals are hit by the number of shots as shown below by the tranquilizer gun, the animals fall into a deep sleep.

Snake ···· 2 shot	Gorilla ···· 3 shots
Lion ···· 4 shots	Elephant ···· 5 shots
- * Carry the animals which are tranquilized to the road exit and put them on the trailer.
- * Animals which come out of their tranquilized state will chase the hunter (the anesthetization time for the first round is about 30 seconds). With each play round the anesthetization time will gradually be reduced.
- * When the fuel quantity for the trailer becomes ZERO, the trailer becomes unoperable and all the animals on it will attack the hunter.
- * The number of the hunters for one game is 5 and one hunter is added when 1,000 points are scored.
